PROFILE

I am a 21 years old coding enthusiast, pursuing my BS Computer Science Degree from Comsats University Islamabad, Sahiwal Campus I have been learning programming & web development since 2021. Till date I am a full stack developer having grip at both frontend plus backend technologies. Nowadays, I am learning native android development and improving myself more in frontend frameworks (React and Next JS)

EXPERIENCE

Sports API Project (Python Flask)

I developed an API to be used in a sports application project. Here is the GitHub link for that project:

https://github.com/msalmankhokhar/InforebornNew_API

Travels Website (Next.js)

This was a travel agency website built with Next.js with Python Flask backend using SQLite Database. Here is the link to the frontend Next.js code:

<https://github.com/msalmankhokhar/habibi-travels-next-app>

Here is the link to its python Flask backend:

<https://github.com/msalmankhokhar/habibi-travels-backend>

Movies Website (Python Flask)

It was a movies promotion website, with Twilio API and Crypto Payment gateway integrated within it. Here is the link to the repo:

<https://github.com/msalmankhokhar/Influx-Global>

Moreover, do visit my GitHub Profile to view all projects:
